### ***Corrupting the Young and Other Stories of a Family Therapist***

*20 Year perspective...*

*Working with people and sadness can take a toll on your spirit.*

*“Corrupting the Young” has been with me for 20 years and I often go back to it to find what I need at that moment.*

*Tess and Moshe Lang teach us the value of self-reflection, and the simplicity of walking alongside people. It teaches us the power of honesty and the relief of humour. I have returned to this book many times and each time, I learn more. I hope there is never a day with nothing left to learn.*

*I recommend “Corrupting the Young” to every new worker that I employ and train. I tell them that I hope this book inspires them, humbles them and above all, reminds them that they are only human and to treat themselves kindly.*

*Thank you Tess and Moshe, your gift to find the humour and wisdom in the struggles of people’s lives has been the food for my soul.*

*Leesa-rae Harrison*

*Coordinator, Intensive Family Based Support Service Mid North Coast.*
